NATURAL HISTORY.

About the English Sparrow.

"What sort of a bird is this?"

"This is an English sparrow. He cannot carry off a lamb, like the eagle, nor is he provided with teeth and claws like the tiger, but he leaves his mark all the same."

"How did he get here?"

"A philanthropist brought him over from England."

"What is a philanthropist?"

"He is a cross between a lunatic and an idiot."

"What did he want to bring the sparrow to America for?"

"Because he hated the country and wanted revenge. It wasn't enough for him that we have small-pox, yellow fever, cholera, drouths, floods, cyclones and forest fires and grasshopper plagues."

"What are the chief merits of the sparrow?"

"His beautiful voice and lovable nature. His song is so much sweeter than a file rasping over cast-iron that people have died after hearing it."

"How does he employ his time?"

"In screaming, fighting and voting early and often."

"Where does he build his nest?"

"In the cornices of houses. If he could have the use of 1,000 trees, rent free, he would turn up his nose at the offer. He couldn't damage a tree any, but he can make it necessary to paint a house every month."

"Of what is his nest composed?"

"Of everything he can handle except old oyster cans and empty beer bottles."

"Does the hard-hearted citizen ever destroy those nests?"

"He does. When his family clothes line, or crow bar, or long handled shovel is missing he pulls down a nest and recovers the lost articles."

"How does the poor sparrow do then?"

"He rebuilds."

"Can he be discouraged?"

"If his nest was pulled down 15,000 of 20,000 times he might commence to feel downhearted, but those who have routed him out 500 or 600 times have not seen him even change countenance."

"What other birds does he agree with?"

"The buzzard and the polecat. He is too proud to take up with every stranger who comes along. He has driven away our robins, bluebirds and larks and chickadees, and even the hens are looking for another opening."

"Would it be wicked to kill one of these sparrows?"

"Awfully wicked. The philanthropists would raise such a howl that the killer would have to skip the country. Besides, you can't shoot 'em, they wont be poisoned, and no one ever yet trapped one. A man down in Ohio thinks a blow with a barn door might fetch 'em, but it is as yet an untried experiment."

"That is all for this time. Let us now lay away our books and sit on the steps and listen to the ravishing melody of the sparrow's evening song."—*Detroit Free Press.*

All Sorts.

The clothes communion Baptists are those who meet together to compare dress finery.—*N. O. Picayune.*

Oui, eet eez true. I sings ze opera of ze Offenbach in ze Anglaise. I sings him so next season.—*Aimee.*

A contemporary asks: "Would the heavens fall if justice were done?" Probably they would from sheer astonishment.

Papa—"'Pon my word, I—I think I shall have the heartburn." Little daughter—"Shall I fetch it for you papa. Is it in the cupboard?"

A State Commissioner of Life Insurance said: "'Receivership' but half covers the case. We need a new word, that shall signify both to receive and devour."

It is said that the laws of New York resemble sausages. You have respect for them until you know how they are made.—*Elmira Free Press.*

A Frenchman, by way of giving expression to his love of nature, exclaimed "O Madame, I like ze cows, ze horses, ze sheep, and anything else that is beastly."

And now it is James G. Blaine who is reported to have made $300,000 in a Western mining speculation. Those "Western mines" cover up a heap of Eastern deviltry.

A friend meeting Pat one day said: "Paddy, did you ever see the Queen?" "See the Queen, is it?" said Pat. "No; but I had an uncle that onst very nearly saw the Juke of York."

An agricultural paper says: "You can make your hens so lean they won't lay." Man alive, that isn't what ails the hens at our boarding house. They're so lean they can't stand.—*Hawkeye.*

When a lawyer was once stating his point for the twelfth time, the Judge interrupted him by saying: "You have made that point eleven times already." "True, your Honor," was the lawyer's reply; "but there are twelve men on the jury."

"I should think that you would feel badly about leaving this place," said the housemaid to the departing cook. "I don't; I'm glad to go. I ain't sorry to leave any of you—except the dog. Poor old Tiger: he always washed the plates for me!"

Three hundred pies a day are sold to the newly-arrived immigrants at Castle Garden, New York. This is as it should be. If we have to assimilate the new comers into our national life, they should assimilate our national dish as soon as they can.—*Boston Advertiser.*

A new sub order of edd-toed ungulatet, or hoofed quadrupeds, named Condylarthra, has been proposed and extended by Professor Cope, to include tertiary mammals constituting two families, the Bhenacodontidæ and Meniscotheriidæ.—*The Critic.* This news greatly relieves us. We have long suspected that this would have to be done, and are much pleased to have our suspicions confirmed in the above manner.—*Harvard Lampoon.*

Blank Book Manufactory and Book Bindery.

Paper ruled to any pattern. Tickets Receipts, etc., numbered and perforated. Charts and maps mounted. The best classes of modern machinery employed. R. T. WILLIAMS, Government street, entrance through Messrs. Hibben & Co's store. *

Public speakers and singers who would possess a clear voice, freedom from hoarseness and sore throat should use Hagyard's Pectoral balsam, a safe, pleasant certain healer for the throat and lungs; it speedily breaks up a cold and cures all pulmonary complaints, that so often lead to incurable Consumption. 24

It cures all debility arising from disordered Kidneys, Liver or Blood, and is the best purifing Tonic in the world. All medicine dealers supply Sample Bottles at 10 Cents, Regular Size $1.00." 23

THE ELECTION NEWS.

The exclusive dispatch which we received from the East yesterday announces another great Conservative victory. The Government are stronger than when they went to the country. Many old, familiar faces will be seen no more on the floor of the House, their owners having gone down with the Liberal ship. The rout is complete. The Conservative party are secure for the next five years at least, and the result is satisfactory to all friends of progress in the Dominion. Whether the existence of a government at Ottawa so numerically strong as to feel independent of the six votes of this province will be beneficial to this country, depends largely upon the character of the representatives returned to Ottawa at the ensuing election.

A Standard Falsehood Exposed.

TO THE EDITOR OF THE COLONIST:—As the proprietor of the *Standard* has given me no satisfaction that he will publish the accompanying letter, will you do me the favor to print it?

Yours,
G. A. SARGISON.

VICTORIA, B. C., 22d June, 1882.

TO THE EDITOR OF THE STANDARD.—Your statement of what purports to be a report of proceedings at the Opposition Convention on Tuesday evening is, from first to last, an invention.

No want of harmony existed at the meeting, nor was the question of Mr. Wilson's withdrawal and Mr. Williams' substitution discussed, or even hinted at.

As I cannot believe that you have wilfully misrepresented the matter, I have no doubt you will cheerfully insert this correction.

Yours &c.,
G. A. SARGISON.

O'Rourke, the murderer of the Mahers, near Waterdown, has been granted a respite till January next.

COLLINGWOOD, June 5.—On Tuesday evening last Capt. H. M. Campbell left here by the tug Matham for Manitowaning bay to raise the burned hull of the steamer Manitoulin. The party reached the wreck on Thursday morning, got to work the same morning with a Brokenshire pump and forty Indians, and on the evening of Thursday had the hull successfully raised, and ready to start for Owen Sound. They left Manitowaning bay on Thursday evening, were delayed by a heavy gale at Killarney on Friday, left Killarney on Friday at ten p. m., and were out in the gale of Saturday last, during which time they held on to the wreck, and arrived at Owen Sound on Sunday at 8 a. m. The hull was in better condition than was expected, and the company will rebuild at once.

MONTREAL, June 6.—Mr. W. H. Kerr, Q. C., raised an important legal point today in the three million dollar suit against Mr. John Blankin, an ex-director of the Consolidated Bank, which will have an important bearing, and will cause great embarassment if decided in his favor. The learned counsel contends that the liquidators who wound up the defunct bank were not legally appointed.

Duncan Riordan, of the firm of Messrs. Mowat, Maclennan & Downey, barristers of this city, died rather suddenly about ten o'clock yesterday morning.—*Globe, June 7.*

MONTREAL, June 9.—The Merchants' Bank has issued its annual statement to the 31st ult. It shows that the result of the year's business was a net profit of 14 per cent. This is about half per cent. more than the Bank of Montreal's earnings.

OTTAWA, June 8.—It is probable that the new government four dollar bills will be issued on the 1st of July.

The nominations in Manitoba take place on Tuesday, June 27, and polling on July 4. In Algoma the nomination takes place on June 15, and the election on July 3.

Considerable excitement was caused today by the arrest of the brothers Sparrow on a charge of uttering counterfeit bank notes. One of them is a teacher of drawing in the Model school, and the other was private secretary to Hon. John O'Connor until the resignation of that gentleman.

FREDERICTON, June 8.—Last night a fire broke out in the planing factory of Mr. George Todd, situated on Brunswick street. The fire was quickly communicated to the buildings of Messrs. Todd, Dykman, Patterson, and Wynn, all of which were destroyed except that of Mr. Dykman, which, however, is badly damaged by fire and water. The only insurance was that for the building owned by Mr. Dykman, which was insured in the Western for $14,000. Mr. Todd was uninsured and figures his loss at $10,000. The total loss is estimated at about $140,000. The firemen worked well.

ST. JOHN, N. B., June 8.—The shipbuilders working on the steamers in the Miramichi struck for 35c per hour, and obtained the advance. Workmen in Dnnn's lumber mill here are on strike today for higher wages.

RICHMOND HILL, June 8.—Hon. Alex. Mackenzie is still ill, but improving.

Danenhower's Jealousy of Melville.

WASHINGTON, June 13th.—Lieutenant Danenhower's neglect to call on Mrs. Melville when he was in Philadelphia is the subject of severe censure here. The impression is general that Danenhower was jealous of Melville all during the expedition of the Jeannette. One of the two letters received from Melville by Hunt, when he was Secretary of the Navy, goes towards corroborating this. Hunt refused to give portions of Melville's letter out for publication, and it is understood that Melville said that Danenhower's jealousy was so strong that it took the form of insanity. Though Hunt told this in private conversation, he declined to allow the exact language of Melville to be made public.

FARMERS' BASKET PICNIC.—This annual picnic will be held on July 1st at Sand Hill, South Saanich. The grounds have been cleared, the platform enlarged, and the best cotillion band on the island will be in attendance. All who may attend will be welcome. *

THE LOSS OF THE ESCAMBIA.

Due to Bad Loading.

SHE GOES DOWN FIVE MILES OFF GOLDEN GATE.

Only the Captain, Engineer, Cook and Steward Saved.

SAN FRANCISCO, June 20.—About 5 this afternoon the British steamer Escambia, loaded with wheat, put to sea, bound for St. Vincent, Portugal. Information from the signal station at Point Lobos is now received that when about five miles off the heads the steamer capsized and sank, and so far as is known all hands are lost. The tugs Wizard and Rescue have gone out. In the meantime it is impossible to account for the catastrophe, as the weather was fair and wind and sea moderate. The only thing at present assignable is that a quantity of coal carried on deck rendered the ship topheavy. The pilot who took the steamer out says that the water ballast tanks had all been pumped out to render the ship lighter for carriage of cargo, and coal was stowed on the deck as high as the bridge. While going down the harbor the machinery was stopped for a few moments and the ship falling off into the trough of the sea, rolled her scuppers under. The pilot expressed the opinion that she was unsafe and believes that the catastrophe might have been expected in open water. The disaster was seen from the signal station, but it is impossible to say whether any one was saved. The ship's complement consisted of about 25 men all told. She was loaded by Driesbach & Co. and it is believed her cargo was fully insured. The Escambia was about 200 tons burden and came from Hongkong via Victoria with Chinese passengers.

SAN FRANCISCO, June 20.—By telephone from Point Lobos it is learned that Captain Purvis with the engineer, cook and steward of the Escambia, came ashore in one of the ship's boats about daylight, near the Ocean House. No report regarding the disaster is yet received from them.

It proves difficult to obtain much information regarding the loss of the steamer Escambia. Captain Purvis has been closeted during the morning with consignees, and the men rescued with him have been stowed away to sleep off the fatigue of the night's struggle with the waves. This much, however, has been gleaned from statements made by the captain and stevedores who stowed the vessel. Owing to the empty condition of the water ballast tanks and to coal carried on deck, the ship was cranky. On getting outside she encountered a heavy sea, one of the journals became heated, and the engines were stopped. The ship losing headway fell off into the trough of the sea and a wave boarded her, throwing her on her beam ends. All hands rushed on deck and water began to pour in through the skylights and hatches on deck. Owing to the dangerous position of the ship no one would go below to start the engines and get her head to sea again, and she filled rapidly and sank. The captain, engineer and seven others got into one boat and nine men took a life boat. The latter boat was full of water and had no oars. The captain supposes that the remainder of the crew, eleven in number, went down with the ship. The captain's boat pulled around in darkness until about 1 A. M., when the attempt was made to land on Ocean beach. The boat swamped, and only four of its occupants succeeded in reaching land. This morning search was made along the beach for the bodies of other occupants of the boat, but no trace of them found. The revenue cutter Richard Rush is now out looking for the life boat. The Escambia had on board a cargo of wheat valued at $90,000, fully insured. The ship is believed to be insured in Liverpool. It is stated that it is customary to empty water tanks on loading, and as coal is used up, to fill the tanks to preserve stability. The general impression is that the disaster was due to piling coal on deck. Inquiry will be held at once. In the meantime, parties interested maintain guarded silence.

At Bougival, a few miles distant from Paris, one of the youngest and most fascinating of Parisian actresses, Mlle. L—, who lives in that neighborhood, was at two o'clock in the afternoon wending her way to a friend's house when, as she neared the bridge, she was politely addressed by a gentleman who, faultlessly gloved, and with hat in hand, said: "Mademoiselle, I find myself most awkwardly placed. I have forgotten my purse, and for want of a halfpenny I shall be unable to cross the bridge unless you come to my aid." Mlle. L— immediately felt for her purse and at once handed to the "exquisite" the coin solicited, when, before she had time to close it again, he dropped into the purse a tiny little packet and rushed off with all speed. On recovering from her surprise the young artist opened the said packet, which she found to contain a magnificent torquoise ring and a note which, translated, runs thus:—"Mademoiselle-For a long time I have been burning with a desire to possess something that has belonged to you. Will you forgive the device and accept in exchange this trifling pledge of the affection of yours, X." The most amusing part of the story, however, is yet to be told. The gentleman in question, who is well known in the financial world, was seen at his club to have exchanged the handsome gold locket previously appended to his chain for a halfpenny mounted with a simple but exquisitely-chased gold rim.

TO THE ELECTORS OF VICTORIA CITY.

GENTLEMEN:—AS ONE OF THE FOUR GENtlemen selected by the convention I beg to solicit the honor of your suffrages and I do so in the firm conviction that any change is preferable to a continuance of the deplorable incapacity of the existing government. Since they have held the reins of power our relations with the Dominion have been strained and instead of a cordial co-operation for our mutual benefit there has been a half-concealed distrust of a friendly government.

Much of the legislation for the past few years has been of a retrogressive character and many acts have been disallowed as trenching on the authority of the Dominion Parliament.

The enforcement of the collection of Provincial taxes has been unduly harsh and oppressive.

The removal of the Vancouver Island lands from the railway belt after having been locked up for so many years has rendered the construction of the Victoria and Nanaimo Railway as a portion of the Canada Pacific line very doubtful.

The blundering over the drydock and the arbitrary refusal of even allowing the claims of Messrs. Reid Brothers and their numerous creditors to be considered are subjects which vitally effect the credit of the Province and must inevitably delay the construction of necessary public works until the liabilities thus incurred are met.

I shall advocate the entire exclusion of Chinese and any measures which will have the effect of restricting their presence in this province will meet my support.

I shall forward the construction of the Island Railway in the mode best calculated to advance the interests of the Province, and I strive to lessen the friction between the Dominion and the Province; and if I am honored with your confidence I shall give me support to any government which in my opinion will conduct the public business on sound principles and with honesty and integrity.

I have the honor to be, Gentlemen,
Your obedient servant,
je22 M. W. TYRWHITT DRAKE.

GRAND SWEEP FOR THE CONSERVATIVES.

THEY CARRY ONTARIO, QUEBEC AND NEW BRUNSWICK.

Great Slaughter of Liberal Leaders.

ALL THE MINISTERS RETURNED.

(Special to The Colonist.)

MONTREAL, June 20.

The elections have resulted in a glorious victory for the Conservatives.

All the members of Sir John Macdonald's Ministry are returned with large majorities.

All the members of the late Grit Cabinet, with the exception of Blake, Mackenzie and Laurier, are defeated.

Anglin, Sir Albert Smith, Cartwright, Huntington, Laflamme and ex-Governor Macdonald are among the defeated.

All the leading cities, including Montreal, Toronto, Hamilton, Quebec, St. John (N. B.), and Halifax have been swept clean by the Conservatives.

Blake is returned by a very small majority over Bunting.

Following are the returns for each province so far as received :—

	CONSERVATIVES.	LIBERALS.
Ontario.....	46	29
Quebec.....	53	11
New Brunswick	8	7

Nova Scotia and Manitoba not yet in.

The Conservatives are celebrating their great victory with every manifestation of joy at the result. So far as the returns have come in they show a majority of 60 for the government.

This majority, it is expected, will be increased to 80.

Dakota's Passengers.

The Penitentiary.

(Special to The Colonist.)

NEW WESTMINSTER, June 22.

Yesterday, owing to certain charges of alleged favoritism made by Isaac Verlin, a convict in the penitentiary, against the warden and officers, his Lordship ordered Mr. Bole to hold an inquiry at the penitentiary into the whole matter and report the same with his opinion thereon in writing to his Lordship.

THE "QUEEN OF THE PACIFIC".—The New York *Nautical Gazette* gives a description of the beautiful vessel just built at Philadelphia for the San Francisco and Portland trade. She is 366 feet long, 38.7 feet beam, 22.6 feet hold and 30 feet to awning deck. All the appointments are of the most elegant description. The vessel is lighted through with electricity. Her main saloon is one of the most magnificent afloat. Capt. Alexander, late of the Idaho, is in command.

THE RECENT MONGOLIAN INVASION.—A ship load of Chinese intended for Portland are perambulating the streets and herding in Comorant and Store street dens. Fully a hundred of them established their kitchen yesterday afternoon in the open space off Johnson street near Janion's wharf. Chinese cabins and dens everywhere are packed full, apparently with barely enough space to lie down in. Sanitary officers will have enough to do to enforce the cubic air by-law under such circumstances. To-day 760 more will be landed.

What Some People Say.

That a young man in search of *curios* from the Flowery Kingdom discovered yesterday a Chinaman's hat and several other "iktas," and was triumphantly carrying them off the wharf when he was pounced upon by about 20 recent arrivals from Hongkong, and fled thoroughly Beeton, *minus* his curios.

That while on his recent trip to London, Mr. DeCosmos visited *Paree!* Fifty-five hundred dollars enabled the missionary to travel in style.

That Mr. W. H. Ladner, who is in town, will stand for the local House in Westminster district.

That Sandford Fleming sails for England next month. He crosses the ocean for the purpose of promoting his cable scheme.

That great indignation prevails at Winnipeg at a combination among the insurance men to keep up rates, now that the city has gone to enormous expense in perfecting the fire system, and water-works are on the eve of completion.

That but for his two cold baths daily it is thought that Darwin might have lived ten years longer.

That Mr. Burlingame once said, after his return from his mission to China, "There are twenty thousand Ralph Waldo Emersons in China.

That Flotow, the composer of "Martha," "Stradella," and other operas, is living near Vienna and recently celebrated his seventeenth birthday.

That the New York *Sun* concludes that the future historian will say that, while O'Connell was incomparably the greater orator, Parnell was the better statesman.

That a Dubuque man who found a wallet containing $300 in cash refused to give his wife $5 to buy a hat, and she peached on him and made him restore the whole sum to the loser.

That Dennis Reardon, mate of the barque Mary Glover, was kicked to death at San Francisco by two of the sailors of his ship.

That Amor DeCosmos continues to assault the English language and print libels on the Opposition candidates through the medium of his "Rag" and then steps into the street and declares he has not even read them.

That Bishop Sillitoe and wife, of New Westminster, B. C., are the guests of John Leary, Esq. Bishop Paddock is stopping with W. A. Jennings.

That Tuesday was the busiest day ever experienced on the Puget Sound Telegraph Co.'s line.

That yesterday, at Mansell's B. C. Boot and Shoe Store, a man was found in a fit. He had entrusted his foot to C. Nangle, Mansell's new manager, and the result was a "perfect fit"-ing pair of fashionable boots.

That the *Evening Post* gracefully acknowledges its indebtedness to *The Colonist* for exclusive eastern election news. All respectable journals in the province will do likewise.

Marine.

Ship Queenstown, from Departure Bay, arrived at San Francisco on the 20th.

British barque Lady Lisgard, San Francisco, April 14, for Queenstown, put in at Valparaiso, leaking; crew refused to proceed. It is thought she will have to discharge.

Steamship Hylton Castle sailed from San Francisco June 19th for Departure Bay.

Proceedings will probably be instituted against the captain of the British steamer Anjer Head at San Francisco for violating the United States statutes in regard to the manner in which bunks shall be ranged on board a vessel. It is claimed that he has failed to comply with the law in this respect, and according to law the vessel is liable to pay a fine of $5 for every passenger on board when these requirements are disregarded. The steamer brought 806 passengers, which would swell the total fine to a round sum.

The number of Chinese arrivals from Hongkong during the present year is 6676 out of which 5297 were consigned to Stahlschmidt & Ward 929 to Tai Chong & Co., and 450 to Welch, Rithet & Co. Several other vessels have yet to arrive which will swell up the total importation to a very large figure.

Steamer Alexander will bring in the barques Martha and Agate to Janion's wharf this morning where they will discharge Chinese merchandise.

Third Concert of Rivo-King

We are glad to be able to say that the attendance last night was much better than at either of the two first concerts. An analytical criticism of Mme. Rivo-King's different interpretations will not be attempted; suffice it to say that there is little room for carping even by the hypercritical. When we have said she is in truth a great artist, one who commands the respect of all musicians and every cultivated mind, we say no more than is strictly true. We sincerely hope that at some future day we shall have the pleasure of hearing her wonderful playing again, and that if this should not be that the memory of her great performances will not fade from our memory. A word of praise is due the Superb Decker Bros. grand piano; it is a noble instrument, the finest we have ever heard.

The Mysterious Wreck.

The following dispatch probably refers to the mysterious wreck that was seen off Cape Flattery by the sealfishers a month ago: "The schooner St. George, of San Francisco, left that port February 1st for Kodiak with lumber. She never arrived at her destination. A letter from Peterson's point, Chehalis county, W. T., states a schooner with name St. George, San Francisco, and loaded with lumber and shingles, went ashore about nine miles north of Gray's Harbor, bottom up. All hands are probably lost.

THE CHINESE TREATY.—The *Commercial's* Washington correspondent says: "An impression prevails here that the Chinese government does not intend to accept the action of our government in reference to the exclusion of her subjects for the next ten years without an emphatic protest. Already it is known that the government regards the provisions of the bill recently passed as a direct violation of the treaty existing between the two nations. While a protest will undoubtedly be made it is not believed in official circles that China will go to the extent of abrogating the treaty, but will, after expressing forcibly the belief that the treaty has been violated, quietly accept the situation.

COMMITTEE MEETING.—Mr. DeCosmos' committee met last evening, by the strangest possible coincidence in *Moody* Hall. The attendance was very slim and when a test of fidelity was attempted to be applied several gentlemen declined to take it and withdrew.

Public School Examination.

The midsummer examination of the boys' department of the public school took place yesterday. In the morning the pupils were put through a rigid examination in their several studies and acquitted themselves in a manner that speaks highly for the teachers. In the afternoon quite a concourse of visitors assembled among whom were noticed Mrs. I. and G. Oppenheimer, Mr. and Mrs. W. J. Jeffree, Mrs. Allen Francis, Mrs. P. T. Johnston, Mrs. Humber, Mrs. A. Wilson; Mrs. Williams, Mrs. J. Smith, Mrs. Gowen, Mrs. Christinsen, Mr. and Mrs. Short, Mr. and Mrs. Stevens, Mrs. W. Jackson, Hon. Mr. Beaven, Messrs. S. Spencer, A. Wilson, Butler, Rev. Mr. Beaven and others.

Several readings and recitations were given by the boys among which was "The Village Blacksmith" by Master H. N. Short, in an admirable manner. This young gentleman certainly has good elocution power and if properly trained will make a good speaker.

"Mary Queen of Scots" and the "Auction Sale" from "Tom Brown's School-days" were well read by Master Prine and R. George respectively.

After the recitations the best spellers from Mr. Halliday's class and the best from Mr. Thain's were put on the floor for a spelling match which resulted in a victory for Mr. Thain's pupils, Master R. George winning the prize.

After this a reading for a special prize given by his worship the Mayor was conducted in the same manner by Mr. MacLaughlin which Master E. Smith carried off.

The names of those who had successfully passed their examination were then read with the following result: from the 5th division to the 4th, 14; from the 4th to the 3rd, 10; from the 3rd to the 2nd, 13; from the 2nd to the 1st, 16; from the 1st to the High School, 3.

After which the prizes in the separate divisions were presented by the Hon. Mr. Beaven who accompanied each with a few appropriate remarks:

Edwin Smith, 1st prize for passing to High School, special prize for reading.

F. Jackson, 2nd prize passing to High School.

W. Williams, 3rd prize passing to High School.

Wm. Clanton, highest marks.

2ND DIVISION.

F. Davie.

A. Hade, history and geography.

Wm. C. Wilson, (special) good conduct, (decided by vote of division.)

Geo. Watson, arithmetic.

John Muirhead, most improvement in writing during the term.

Arthur Hodges, spelling and dictation.

R. Wilson.

R. Johnson.

W. J. Jeffree, (special) general proficiency, 2nd division.

H. N. Short, (special) geography and history.

A. T. W. Dearberg won the special prize for appearing the neatest the greatest number of times during the term.

Geo. Moss, arithmetic.

Arthur Caldwell, reading.

Arthur Humber, good conduct.

Geo. Denny, mathematics.

Geo. Huson, geography.

R. George, reading and most improvement in all the studies of his divisions.

Wm. Savage, highest marks in the examination.

Stanley Englehardt, spelling match of 3rd division between girls and boys.

R. Nuttall, best writing and best composition.

R. Shaw, most improvement in 3rd division.

C. Stute.

R. Crowther.

F. Hall.

Geo. Gardiner, arithmetic.

M. Oppenheimer, general good conduct.

L. Sea, reading and conduct.

Thos. Miller.

Albert Baker.

W. Gowen, good conduct.

Geo. Burt, highest in 4th division.

The boys then formed in line and marched out of the school under Mr. Thain's management to the beating of the drum.

[The prizes that were not filled in our reporter was unable to get owing to the confusion usual on breaking up day at school.—ED.]

Municipal Police Court.

(Before Hon A. F. Pemberton.)

THURSDAY, June 22.

An Indian d. and d. was fined the usual five shillings.

ASSAULTS.

Assault case preferred against Mr. G. M. Brown by T. Shakespeare was remanded till Monday.

A similar case laid by Mary Lawrence against T. Steadman was dismissed as the complainant did not appear.

ROBBERY.

Maggie Wheeler was charged by D. Dickinson with stealing $120 from him.

Supt. O'Connor asked for a remand for one day as the prosecutor was not in a condition to give evidence.

Mr. Mills for the prisoner contended that the prosecution was a piece of black mail and that the case ought to go on or the prisoner be discharged.

Supt. O'Connor asked for two sureties in $250 each for her appearance.

Those recognizances were exacted or in default the prisoner to be remanded back to gaol.

Sir John on the Chinese and Independence.

In a recent political speech at Yorkville, Ont., Sir John A. Macdonald said he was opposed to the importation of Chinese labor in Canada in any form, and if he was kept as the family physician he would see that Canadian laborers would not be obliged to compete with semi-barbarians who had only one shirt to a man and whose backs were so fertile that potatoes could be sown thereon. His policy was Canada for the Canadians, and for the immigrants of the Old World ever remaining as a part of the Great British Empire.

MORE OLD BUILDINGS GOING.—The good work of demolition among old '58 and '59 structures is still progressing on Wharf street. Mr. R. Finlayson commenced pulling down the rest of the old stores that 20 years ago did an immense business, while the Victoria post office was located where the new brick and stone warehouse is now in course of erection.

THE OPPOSITION.—The statement in the government organ yesterday that the proceedings of the Opposition caucus were inharmonious is a tissue of falsehoods.

Alaska News.

JUNEAU CITY, ALASKA,
June 9th, 1882.

FRIEND B.—I arrived here on the 27th of last month after being four days coming from Fort Wrangel.

Juneau City is like most other places, when a long way off, distance to the view enchantment lends. There is plenty of rain and snow up here. Where I am it is about four miles from the fort. It is where the mines are. They are all preparing to go to work; but even now some of the claims have from 10 to 14 feet of snow on them, and they say that in September the snow begins to fall again. I am at work on a ditch at $4 per day; that is when it comes out of the claim.

Board up in the basin is $7 50 per week and $7 in the town. Stores are very reasonable up here. Flour is $2 for a 50 lb bag and other things in proportion. There has been nothing new found this season so far, but they all say who have been out that the snow is too deep.

There are a great number going back by this steamer and if the quartz ledges do not turn out well this will not be a very large camp.

There have been no cattle brought in yet, but there is a man here who is going to bring some from Portland next steamer, so he says. I would advise no one to come here as there is very little work and that only in the mines. In fact, I think it is a good country to emigrate from. But the country has not been prospected yet and much cannot be said about it. It may yet turn out a good mining country; but the seasons are too short for men to get round.

SEA WALL.—The substantial sea wall extending from the H. B. Co.'s wharf to the new one recently erected by Mr. Yates is nearly completed and filling up is fast progressing from excavations for other new brick and stone warehouses on the water front belonging to Mr. R. Finlayson. Piledriving for the new wharf, which is to be continued out from this wall, will soon be commenced. Dock accommodation will then be unbroken from the Customhouse to Johnson street, and almost equally divided between the H. B. Co., Messrs. Turner, Beeton & Co. and Messrs. Welch, Rithet & Co. The wooden buildings that are now coming down were the centre of a very lucrative wholesale and forwarding line. They will now make way for substantial edifices that will be a credit to the city and the enterprising owner of the water front from the H. B. Co.'s property to that of Mr. Yates.

NO CONNECTION.—Mr. Henry Mitchell indignantly denies that he will be a government candidate for the local House as stated in this journal. Mr. Mitchell is entitled to an apology for the reference.

The Father Pops the Question.

(Maquoketa (Iowa) Sentinel.)

A few days ago a staunch old farmer, living a few miles from Maquoketa, drove to town, accompanied by his son, and reaching a certain residence where resides a family in which there is a handsome daughter not yet out of her teens, they stopped. The old man held the horses while the young man entered the yard and rapped gently on the door. When the young lady opened it and said, "Good morning," the young man stammered out; "Is Miss —— at home?" She answered, "Yes, sir." "Wall, my father wants to see 'er." "Won't you come in?" she asksd. "No, I'll go and hold the team while father comes in," he said. The father came in, and, without ceremony began: "My boy out there's got eighty acres of good land, a team, and wants to get a wife 'twixt now and harvest, but he's kinder bashful, and wanted me to ask if you wouldn't marry him, and if it was all right we would come around the next Sunday and settle up the business." Imagine that young lady's surprise and bewilderment, never having seen the father or son. Regaining her composure, she replied: "I don't care to get married now.

The bark Great Western was burned to the water's edge and the ships Big Bonanza and Centennial and the British bark Norma damaged by fire. It is not yet extinguished. A fire boat was sent over from this city. Many people were injured.

Losses by the fire at Oakland this a.m. are: On the wharf and warehouse, $20,000; ship Great Western and cargo, $40,000; British bark Norma damaged mostly in her rigging, $8,000. The ships Centennial and Big Bonanza were towed out before much damage was done. The fire originated in the warehouse.

ST. JOHNS, June 19.—The American schooner Massasott, under full sail, crushed into an immense iceburg and sank almost immediately to-day. Five of the crew went down with the vessel. A fog prevented the lookout from seeing the berg.

Not Much About Ireland.

LONDON, June 20.—Thomas Walsh, arrested in connection with the seizure of arms in Clerkenwell, was charged in court to-day with feloniously receiving and fraudulently dealing in rifles, bayonets and other weapons, believed to be the property of the government. He was remanded for a week and bail refused.

There has been considerable excitement on the stock exchange and Paris bourse in consequence of the decline in Egyptian stock and Suez canal charges.

DUBLIN, June 19.—The document recently published purporting to be a circular from the commander of the Dublin district, with reference to the military disposition to be observed in the event of some absurd blunders is not authentic but was concocted from one which fell into the hands of the compiler.

Arabi Pasha has thanked the khedive for his appointment as member of the ministry. There is no doubt that he is straining every nerve to maintain order. He is beginning to realize that he has provoked an exodus of Europeans which will ruin the country.

ALEXANDRIA, June 19.—Banks are mostly prepared to resist a siege. The Ottoman bank has been converted into an armory, the entrance blocked by bales of silk and the clerks well supplied with provisions. They also have ropes ready to haul up refugees from the streets.

ISMALIA, June 19.—Alarm is felt here because of the proximity of a large number of Bedouin Arabs who lately approached close to town and have been observed hovering along the unguarded banks of the canal.

Arabi Pasha is on the way here from Cairo.

LONDON, June 21.—Largon won the sportsman's cup in the sculling race, beating Pearce and Laycock.

QUEENSTOWN, June 20.—Chief officer Watts, of the American ship Imperial, from San Francisco, was arrested on arrival here, charged with wounding with intent to kill several of the crew of the American ship Gatherer.

LONDON, June 20.—The Lord Mayor has a telegram from Dr. Mackie, consular surgeon at Alexandria, stating that thousands of poor Christian families are fleeing from Egypt. He says they are leaving all their possessions, and are destitute, and he asks the Lord Mayor to organize a fund for their relief. Another dispatch says the natives talk of quitting the country. Next year's crops are ruined, and it is difficult to see what can prevent a famine.

THE DeLONG TRAGEDY.

STORY OF THE FINDING OF LIEUT. DELONG AND COMRADES IN THE SNOWS OF SIBERIA.

LENA, DELTA, April 12, 1882.

Melville found the bodies of DeLong's party March 23rd. They were in two places 500 and 100 yards from the wreck of the scow. Melville's search party stopped at a place which Ninderman and Noros passed the first day after they left DeLong, feeling sure that the others had not got much further. There they found the wreck, and following the junk came upon a rifle barrel hung upon four sticks. They set natives digging on the east side of the sticks, and soon came upon two bodies under eight feet of snow. While the men were digging towards the east, Melville went on along the bank twenty feet above the river to find a place to take bearings. He then saw a camp-kettle and the remains of a fire about a thousand yards from the tent, and approaching nearly to it stumbled on DeLong's hands sticking out of the snow about thirty feet from the edge of the edge of the bank. Here, under about four feet of snow, they found the bodies of DeLong and Ambler, about three feet apart, and Ah Sam lying at their feet, all partially covered with pieces of blankets. All the others, except Alexy, they found at the place where the tent was pitched. Lee and Knock were close by in a cleft in the bank, towards the west. Two boxes of records, with medicine chest, and a flag on a staff, were beside the tent. None of the dead had boots on. Their feet were covered with rags tied on. In the pockets of all were pieces of burnt skin and clothing which they had eaten. The hands of all were more or less burnt, and it looked as if, when dying, they had crawled into the fire. Boyd was lying over the fire, his clothing being burned throught to the skin, which was not burned. Collins' face was covered with cloth. All the bodies were carried to the top of a hill three hundred feet high, about forty versts to the southwest from where they were found, and there interred in a mausoleum constructed of wood from the scow. The mausoleum was covered with stones and is to be sodden in the spring. A cross is inscribed with the record and name of the dead cut in the search party. After completing the tomb, the party separated to search the delta for traces of Chipps' people. Melville was to go to the north-west part of the delta, and west as far as Olonik river. Ninderman took the centre and Bartlett the northeast. Nindermon and Bartlett found nothing, and Melville has not yet returned.
